E3/F3 & E2/F2 Screw Improvement

As a result of market requests for enhancement to the current screws included with the Centor E3/F3 and E2/F2 hardware, Centor is making a change to these screws.

The current stainless steel wood screws for hinge attachment that are found in the E3/F3 and E2/F2 hardware are scheduled to be replaced with a fully threaded quadrex head (phillips and square drive combo) fully threaded stainless steel screw. All colors in the E2/F2 & E3/F3 are included in this change.

This change will be phased in to the current in-stock hardware over the next 45 days. You will soon receive E2/F2 & E3/F3 hardware with packets of both types of screws. By October 1st we expect that all of the E2/F2 & E3/F3 hardware will have just the new screw in the hardware boxes.

The performance of the new screws has been tested and they have performed equal to or better than the current screw.

If you have additional questions, please contact your sales representative or contact us toll-free at 1-888-520-9009.

Best regards,

Chris Kamensek
President
